What is the Neighborhood Project Grant?

These grants reimburse up to \$1,000 in costs for neighborhoods to complete projects that enhance a neighborhood's livability and involvement, benefit the entire neighborhood and promote a strong sense of community. We encourage you to be creative. These non-revenue producing projects can include, but are not limited to, identification signage, butterfly & rain gardens, native plantscaping and public art projects.

Are you specifically interested in a community food garden?

Allowable expenses include start-up gardening supplies (such as shovels, rakes, hoses, seeds, starter plants, and dirt), materials to construct raised bed gardens, signage, fencing, and garden watering equipment. Unallowable expenses include large sheds, underground irrigation systems, land rentals for gardens, liability insurance, labor to install garden, goods or services for personal use, or other costs incurred prior to grant award.

Total Neighborhood Project Grant Funding Amounts

- \$6,000 for general neighborhood grants (including community food gardens)

Eligible Applicants

- Individuals and community groups must work with their neighborhood association to apply for grants.
- A complete list of existing registered neighborhood associations is available [online](#).
- For more information on establishing an association in your neighborhood, or questions related to the grant application process, contact René Lafflam, RNeighbors' Executive Director, at: rene@RNeighbors.org.

General Requirements (continued on page 3)

- Successful projects will focus on improving a neighborhood's community involvement and livability.
- Neighborhood associations can request more than one grant as long as the total dollar requested per association does not exceed \$1,000. A realistic budget of all expenses for the project must be included with the application.

General Requirements (continued from page 2)

- Projects with matching funds and/or in-kind labor (e.g., volunteer time, donated supplies, discounted materials, etc.) will be given greater consideration for grant funding. Examples of eligible match include volunteer labor, donations of equipment, materials or a monetary match from neighborhood association members or donors.
- Allowable expenses include (but are not limited to) project materials, rental equipment costs, specialized labor (arborist, heavy equipment operator, muralist, etc.), landfill fees, cleanup supplies (paint, gloves, garbage bags, etc.) and delivery charges.
- Unallowable expenses include grant writing, routine maintenance, ongoing operating expenses, advertising and promotion, sponsorship of ongoing program efforts through another entity (e.g., Police Department's neighborhood dog walker watch program), unspecialized labor costs, yard equipment (exception for community food garden grants), food and beverages, facility rental, after-event parties, or any expenditure deemed to be inconsistent with the grant program purpose or not allowed by law or ordinance.
- All projects must adhere to the City of Rochester's ordinance and approval processes.
- Applicants are required to work with registered neighborhood associations.
- Incomplete applications will not be considered.
- Project photos taken or submitted may be used by RNeighbors on the website and/or social media.
- A final report will be required and must include an updated neighborhood contact list (details will be provided to all awardees).

Neighborhood Project Grants Timeline

Application Deadline: Wednesday, March 15, 2017, at 5 pm

- All applications must be submitted to RNeighbors via email at rene@RNeighbors.org.
- Applicants must complete an application and attach necessary supporting documentation. Please read all of the instructions carefully before filling out the application. It is extremely important to fill out the application form properly. If in doubt, ask questions.
- If your request is approved, you must adhere to your application and the Neighborhood Project Grant Agreement throughout the grant's duration. This includes the project scope and budget worksheet.
- This year we'll be highlighting each neighborhood that is awarded a grant in a video presentation. Scheduling a time to work with RNeighbors and the videographer will be necessary so we can tell your project's success story.

Project Evaluation and Selection

The Neighborhood Project Grant selection team will review the submittals based on their merits and then make a recommendation to the RNeighbors Board of Directors for final decisions. Keep in mind that Neighborhood Project Grants are competitive, and the number and size of awards are limited by the amount of available funding.

Applications will be reviewed and selected based on the project's ability to reflect the following objectives.

- Empower citizen leaders
- Foster a vibrant, healthy and livable community
- Nurture citizen involvement for positive change

Notification of Awards: Friday, April 2, 2017

The 2017 grant winners will be posted publicly at RNeighbors.org. All applicants will be notified via email communicating their grant status.

Project Completion Deadline: Monday, October 30, 2017

Need More Information?

Additional Community Grants (available separate from the Neighborhood Project Grants)

- **Rain Garden Grants**

Do you want to reduce stormwater runoff, improve water quality, and provide habitat by installing a rain garden? Rochester residents and non-profits are eligible to apply for a cost-share grant to help install a rain garden on their property. Grant awards will match 50% of eligible costs up to a maximum of \$750! Learn more at www.rochesterstormwater.com/rrr.

- **RNeighborWoods Tree Grant**

Twice a year, in the spring and the fall, RNeighbors, the City of Rochester and RPU offer a grant for a winning neighborhood to receive 25 free boulevard trees. In addition to helping plant the trees, neighborhoods need to work with their neighbors to determine appropriate tree locations with final approval from City Forestry. www.RNeighbors.org
